Hardrock A1 FS: Full aluminum frame

Comes in 13", 15", 17", 19", and 21" frames.

21" frame weighs 29 lbs.

21 speed Rapid fire components with, and V-brakes.

Equipped with the Rock Shox Judy TT shock 80mm travel front fork.

Alivio front and rear derailleurs.

Rockhopper A1 FS:

EXPERIENCE: XC TRAIL HARDTAIL

If you need an animal that will take you deep into the mountains or through your challenging local trails (and home again), then check out the Rockhopper family of trail bikes. The Rockhopper lineage and history are well known, and clearly spell fun, durability and true off-road performance; now with a wider range of applications than ever before.

Stumpjumper A1 FSR:

- All new super lightweight M4 FSR chassis. Fully manipulated M4 tubeset with Transform Monocoque top tube. 100mm travel front and rear. Full sealed cartridge bearing pivots, Hollow Link, and pierced seat tube keeps the frame stiff and lightweight.
- Custom Shimano Hollow Tech Octalink Spline cranks and BB.
- 100mm Manitou Black Elite fork with alloy steerer and external rebound adjust.
- Custom Fox Float R shock with oversize high-volume body and new ProPedal damping system for a more efficient ride.

Hot Rock: Kids Mountain bike

24 spd

Specialized A1 Premium Aluminum frame

Replaceable rear derailleur hanger

SR suspension fork with alloy lower legs

Quick release alloy hubs and seat collar

Alloy handlebar and threadless stem

Allez Road Bike:

Ideal as a Triathlon Bike, the Allez comes with a full A1 Premium Aluminum frame in a perfectly dialed compact configuration. A bonded aluminum fork and Body Geometry Comp saddle to take the sting off the pavement and a wide Shimano gear range to ease you up the hills. The Allez is the bike for about anything you can do off the dirt.

BIKE ACCESSORIES

CAMPING GEAR

6 PERSON TENTS

Make: *Eureka Equinox*

Description:

Nylon free-standing dome tent with heavy-duty waterproof floor.

Comes with tent fly – nylon cover which stretches over the top of the tent.

Floor dimension is 10' x 11'8"; height is 6'7" in the centre of the tent.

Weight is 19 lbs. 6 oz.

4 PERSON TENTS

Make: *Eureka Timberline Kananaskis*

Description:

Nylon free-standing A-frame tent with waterproof floor.

Comes with tent fly/ Vestabule and ground sheet.

Floor dimension is 7'2" x 8'9", height is 4'10".

Weight is 9 lbs. 8 oz.

2 PERSON TENTS

Make: *Eureka Timberline*

Description:

Nylon free-standing A-frame tent with waterproof floor.

Comes with fly.

Floor dimension is 5'3" x 7'2". Height is 3'10".

Weight is 7 lbs. 7 oz.

NOTE No tent is completely waterproof. In a driving rainstorm water will enter through the zippers and seams. Also, the campsite chosen will affect how dry someone stays. The tent should be pitched on dry, well-drained soil or water may soak through the floor. Many times customers will complain about moisture in the tent when in fact it is simply body moisture condensing on the cold wall of the tent.

PARTY TENTS

Description: 20' x 20' canopies designed for outdoor events such as weddings, parties etc.

Consists of 4 corner poles, 4 side poles, 1 middle pole and the canopy itself.

Poles are staked out with pegs.

Comes packed in a bag and can be easily set up. Installation is offered by Sports Rent at an additional cost.

SLEEPING BAGS

Description:

Summer Bags: synthetic fill (Hollofil) mummy style bags rated to –5 degrees C.

Weights: 5 lbs.

Winter Bags: down filled mummy bags rated to – 30 degrees C.

Weights: 7 lbs.

Note: Each sleeping bag comes with a washed cotton liner.
